Spandan Basu

Spandan is an ameteur content writer, competitive programmer, science and art enthusiast and Computer Science and Engineering student currently studying at Rajshahi University of Engineering and Technology. He born and grew up in a village named Mansa under Bagerhat district in Khulna division. He spent a very major part of his life in countryside that's why there is a big influence of life and nature in his life. This engagement made him interested in writing. And his family especially his grandfather made him interested in science during childhood.
